"Passionate Color, Professional Touch"

Passion drives people to be inspirational, innovative, and extraordinary in the pursuit of achievement. ShinHan strives to inspire the passion of artists by producing the highest quality art materials in the world.

"Passionate Color, Professional Touch"

Is a statement that embodies the essence of what ShinHan is about. We utilize traditional methods of manufacturing which have been uniquely enhanced over decades through embracing state of the art technologies. We strive for cutting edge world class quality and settle for nothing less.

Our message to the art world is to be earnest, creative, and harmonious. These are the main principals that ShinHan has followed for almost half century. Since the company was established in 1967, the hands on ownership of the Han family have never changed. From the blending of pigments and inks through the production process, we relentlessly strive to replicate and preserve only natural colors that withstand the test of time. Our effort to produce the highest quality products is inspired by the idea that we assist artists at a variety of levels in freely transferring innovative expression to the canvas and beyond.

ShinHan Art is renowned the world over for its excellence in quality. Our products are used worldwide in diverse fields by professionals and hobby artists. We cherish every relationship that we make with employees and artists. Our seasoned experience has enabled us to develop unique recipes to manufacture high quality products, and loyal artists using ShinHan Art products continually communicate their particular needs helping us strive to produce an unparalleled and full range of quality art products. ShinHan Art is headquartered in Seoul, Korea. Having over one hundred and fifty employees, we operate two manufacturing factories. With over 56 years of heritage, ShinHan Art continues to be Korea's dominant market leader in art material industry. We now distribute our products to consumers in 32 different countries since our first export in 1980. We pledge to continue manufacturing art materials with colors that stimulate artists' passion around the world.

HISTORY

1967 ShinHan Art originally founded by Rin Han as "Haneel".

1968 ShinHan Art signs technical partnerships with Nicker Color co. Ltd.

1973 The company name changed into ShinHan Art from Haneel.

ShinHan Professional Poster Color is launched, offering a range of brilliant opaque colors for designers, illustrators and fine artists.

1974 ShinHan Art expands its Poster Color range for students.

1975 ShinHan Professional Watercolor is launched, offering bright and transparent colors for discerning artists.

1976 Not only the paints, but ShinHan Art also begins to manufacture various painting accessories and easels for professional artists.

1977 ShinHan Professional Korean Colors are introduced, enabling artists to express unique oriental color tones.

1978 ShinHan Professional Oil Color is launched, offering the highest pigments to help create the most brilliant colors.

1980 ShinHan Art Quality Control Standards highly praised/awarded by the Korean Consumers Protection Agency.

1983 ShinHan Art is appointed as Korea's Best Mid-Size Enterprise by Chamber of Commerce in Korea.

ShinHan Art launches ShinHan permanent markers offering 83 colors.

1984 ShinHan Professional Acrylic Color is launched conserving the color brilliance from wet to dry.

1992 ShinHan Art successfully develops/introduces alcohol based TOUCH TWIN Markers offering 120 colors for design, illustration, and animation.

1995 ShinHan Art continues to expand its factory due to high demand of ShinHan Art products in Korea.

Extra Fine "Premium" Watercolors (now known as PWC) are launched offering exuberant colors with maximum transparency and uniform spread.

1996 ShinHan Art becomes a member of Art & Creative Materials Institute (ACMI).

ShinHan Art launches "SHAMI", premium watercolor for students.

2000 ShinHan Art adds 12 new colors to TOUCH TWIN Marker color range. (Total 132 colors)

ShinHan Art develops/introduces TOUCH TWIN BRUSH Markers, offering 96 colors for paint brush stroke illustration via markers.

2002 ShinHan Art launches student-grade acrylic colors for those seeking excellent results at an economical price.

2003 ShinHan Art adds 27 new colors to ShinHan Professional Oil Color range. (Total 109 colors)

2004 ShinHan Art develops/introduces aluminum palette for watercolor containing 36 rectangular compartments and 3 mixing trays.

2006 ShinHan Art adds 12 new colors to Extra Fine "Premium Watercolor" range. (Total 72 colors)

2007 ShinHan Art adds 36 new colors to TOUCH TWIN Marker spectrum. (Total 168 colors)

Redesigned/upgraded TOUCH TWIN Markers are introduced worldwide.

2010 ShinHan Art adds 12 new colors to ShinHan Professional Acrylic Color range. (Total 61 colors)

2012 ShinHan Art adds 12 new colors to Extra Fine "Premium Watercolor" range. (Total 84 colors)

ShinHan Art adds 36 new colors to TOUCH TWIN Marker spectrum. (Total 204 colors)

TOUCH TWIN Marker body design is ergonomically upgraded for better grip/drawing, replacing the old square design.

2013 ShinHan Art launches renewed Extra Fine "Premium" Watercolor package under new brand name "PWC".

2014 ShinHan Art launches PASS Design Color, a hybrid of premium watercolor and gouache. (Total 48 colors)

 $Shin Han\ Art\ introduces\ newly\ designed\ package\ for\ Professional\ Watercolor.$

ShinHan Art launches TOUCH Liner, offering 5 different nib sizes (in black color only).

2015 ShinHan Art introduces newly designed package for ShinHan Professional Poster Color.

ShinHan Art launches ShinHan Professional Poster Color Tube, sh Poster Color, sh Oil Color and sh Korean Color,

ShinHan Art launches TOUCH Liner Color, offering 7 different colors and 2 different nib sizes.

ShinHan Art launches TOUCH Marker Pad and paper.

2016 ShinHan Art launches ShinHan Professional Watercolor Palette.

ShinHan Art introduces newly designed package for ShinHan Professional Oil Color.

ShinHan Art introduces newly designed package for ShinHan Professional Korean Color.

2017 ShinHan Art adds 20 new colors to PWC, Extra Fine Watercolor range. (Total 104 colors)

ShinHan Art launches ShinHan Professional Watercolor Palette 42.

ShinHan Art launches S+ART Acrylic Color 7.5ml

ShinHan Art launches S+ART Watercolor 200ml.

ShinHan Art launches TOUCH TWIN 72 Marker Special Set.

ShinHan Art launches ShinHan Professional Poster Color 100ml in Black and White color.

2018 ShinHan Art launches ShinHan Watercolor Palette 24.

ShinHan Art launches ShinHan Professional Metallic Powders. (Total 5 colors)

ShinHan art launches PWC, Extra Fine Watercolor TINT 6 Tube [A], [B] Set.

2019 ShinHan Art launches TOUCH Refill ink. (Total 204 colors)

2020 ShinHan Art launches TOUCH Drawing Pencil.

ShinHan Art launches Premium Sketchbook Hardcover A4, A5.

ShinHan Art launches Shinhan artist Eraser (Black).

ShinHan Art launches ShinHan Pencil Extender.

ShinHan Art launches ShinHan Sketchbook 360 x 260mm 170g.

2021 ShinHan Art launches ShinHan Professional designers gouache. (Total 72 colors)

2022 ShinHan Art launches SSENCE Acrylic Color. (Total 96 Colors)

ShinHan Art launches SSENCE Acrylic Mediums. (Total 10 Types)

2023 ShinHan Art launches TOUCH Opaque Marker, offering 3 different nib sizes. (Total 15 colors)

2024 ShinHan Art launches PWC Half Pan. (Total 12 Colors)

SHINHAN OIL COLOR MEDIUMS

2020581-0101 TURPENTINE 200ml

2020321-0101 TURPENTINE 55ml

TURPENTINE

Turpentine is a solvent made by distilling resin obtained from the branches of pine trees. It is used to thin oil paints. Being volatile, it evaporates very easily and has no sheen. It is commonly used in combination with a variety of oils, such as linseed or poppy oil. Depending on one's technique, viscosity and density can be adjusted by combining turpentine and oil in a ratio between 7:3 and 1:1.

1095580-1020 PETROLE 200ml

1095320-1020 PETROLE 55ml

2020581-0102 ODORLESS PETROLE 200ml

2020321-0102 ODORLESS PETROLE 55ml

PETROLE / ODORLESS PETROLE (MINERAL SPIRITS)

Mineral Spirits are a refined solvent obtained from petroleum, and are used to thin oil colors. When mixed with oil colors, Mineral Spirits evaporate quickly and give layers of color a matte finish. They are generally combined with oils such as linseed or poppy oils in painting mediums. Depending on the technique used, viscosity and density can be adjusted by combining the Mineral Spirits and oil in a ratio between 7:3 and 5:5.

SHINHAN OIL COLOR MEDIUMS

2020321-0201 LINSEED OIL 55ml

Linseed Oil is made by refining the oil extracted from the seeds of the flax plant. A highly useful and slow-drying medium, it offers excellent adhesiveness. It gives oil paintings a distinctive coloring and a strong, glossy film. It is commonly used in combination with turpentine or mineral spirits, in a ratio ranging from 3:7 to 5:5. The viscosity and density may be adjusted according to one's technique.

2020581-0202 POPPY OIL 200ml

2020321-0202 POPPY OIL 55ml

POPPY OIL

Poppy Oil is refined from the poppy flower. It is a very slow drying oil that will not cause yellowing overtime. Poppy Oil is useful when a painter would like colors to remain wet for long periods of time, allowing for increased work time.

2020581-0203 SUNFLOWER OIL 200ml

2020321-0203 **SUNFLOWER OIL 55ml**

SUNFLOWER OIL

Made by refining sunflower seeds, Sunflower Oil is a high quality oil used for painting. It possesses similar properties to poppy oil and dries less yellow than linseed oil, keeping discoloration to a minimum. Like other oils it imparts the gloss that is a distinctive characteristic of many oil paintings, enhancing color. It is commonly used in combination with solvents such as turpentine or mineral spirits. Depending on one's technique, viscosity and density may be adjusted by blending Sunflower Oil and solvent in a ratio between 3:7 and 5:5.

SHINHAN OIL COLOR MEDIUMS

1095580-3010 STAND OIL 200ml

1095320-3010 STAND OIL 55ml

2020581-0301 **PAINTING POPPY OIL 200ml**

2020321-0301 PAINTING POPPY OIL 55ml

STAND OIL

Stand Oil is a synthetic oil resistant to yellowing over time.

PAINTING POPPY OIL

Painting Poppy Oil is a painting medium made of Mineral Spirits and Poppy Oil. This convenient medium allows painters to have the non-yellowing, slow-drying qualities of Poppy Oil in a low-viscosity form.

SHINHAN ACRYLIC COLORS

Capture the moment of inspiration with ShinHan Acrylic Colors

ShinHan Acrylic Colors offer the workability and consistency of acrylic with a faster drying time and easy water-based clean-up. It provide artists with unparalleled quality and brilliance in colors to help you create your next masterpiece.

ShinHan Art provides three major Acrylic Color lines

- SHINHAN PROFESSIONAL Acrylic Color
- SSENCE Acrylic Color
- Student Acrylic Color
- S+ART Acrylic Color

for professionals

Maximum performance and productivity for artists

SHINHAN PROFESSIONAL Acrylic Color has a fast drying time that allows artists to quickly layer colors. Each layer dries to a durable and flexible finish. Their abilities to withstand natural weathering and corrosion makes them perfect for mural painting. The colors are bold, intense, contemporary, and are readily mixable in any possible combination. The heavy-body SHINHAN PROFESSIONAL Acrylic Color creates a textured brush stroke essential for impasto painting techniques.

- 61 brilliant colors
- High quality ShinHan professional pigments and acrylic emulsion
- · High degree of lightfastness
- Fast drying time

COLOR CHART 61 colors

Explanations of the signs

2123652-1430 GESSO 250ml

2123792-1430 GESSO 500ml

GESSO (heavy body type)

SHINHAN PROFESSIONAL Gesso is a premium quality acrylic gesso with very good level of pigmentation. It provides maximum covering power for surface texture with perfect tooth and adhesion. It also intensifies the colors of paints and dries quickly without cracking. Upon drying, ShinHan Acrylic Gesso prevents any subsequent changes in quality. It can be mixed with acrylic colors to have a tinted ground. Sand or ground shells can also be used for textural effects. ShinHan Acrylic Gesso is exclusively used as a primer not only for acrylic colors, but also for oil colors, gouache and pencil as well. ShinHan Acrylic Gesso can be applied to a variety of surfaces, such as canvas, brick, cement walls, wood, or hardboard panels.

2123652-1131 **GEL MEDIUM 250ml**

GEL MEDIUM

SHINHAN PROFESSIONAL Gel Medium provides a translucent effect when mixed with acrylic colors. Being viscous, the drying rate is much slower than other acrylic mediums. It's strong adhesiveness enables materials such as wood or paper to be applied to the painting surfaces as collage. Like Gloss Medium, Gel Medium offers shine and can be applied thickly with a painting knife or brush, as with oil paintings. When using modeling paste, blend it in a ratio of one part Gel Medium to two parts modeling paste to ensure an even texture which will be resistant to cracking.

2123652-1333 **GLOSS MEDIUM 250ml**

GLOSS MEDIUM

SHINHAN PROFESSIONAL Gloss Medium enhances brightness and sheen. To create a glossy finish, blend a small amount of this medium with acrylic color. Use larger amounts to achieve a transparent color wash. If you apply Gloss Medium over the top of an acrylic painting, it will dry completely transparent. At first it may appear hazy before it completely dries.

2123652-1535 MATTE MEDIUM 250ml

MATTE MEDIUM

SHINHAN PROFESSIONAL Matte Medium reduces sheen when mixed with acrylic colors. It can be used together with the Gloss Medium to create a semi-gloss surface.

2123581-0136 **REMOVER 200ml**

REMOVER

SHINHAN PROFESSIONAL Remover is for removing acrylic colors that have hardened. Although acrylic colors are water-based, they are difficult to remove once they are completely dry.

■ ShinHanart

SENCE SENCE

SSENCE ACRYLIC COLOR

SHINHAN SSENCE™ Acrylic Color

ShinHanArt SSENCE™ Acrylic Color paints are made with high quality pigments and acrylic emulsion synthetic resins. These colors are soft and creamy acrylic paint type that are easy to mix. The concealment power of SSENCE™ Acrylic Color allows for it to be applied to a diverse range of surfaces including paper, canvas, wood, metal, glass, plastic, fabric, leather, and rubber. Each pigment within the line expresses a unique quality of transparency.

SSENCE™ Acrylic Color is suitable for beginning to pro level artists because its smooth texture permits modifications. Various ShinHanArt mediums such as our Gesso, gels, mattes, gloss medium, and modeling paste can be used to modify the texture of these acrylic paints. For pouring art, the concentration of paint is adjustable by a controlled ratio of water use. Once dried, the paint will no longer dissolve in water. Available in 96 colors, SSENCE™ Acrylic Color paints allow for flexible creative opportunities for craft art to fine art.

- Made with high quality pigments and acrylic emulsion synthetic resins.
- Soft and creamy textured paint.
- Easy to mix colors and concealment power of SSENCE™ Acrylic Color allows for applications to a diverse ranges of surfaces.
- · Various supplements made by ShinHan such as GESSO, gels, mattes, gloss medium, and modeling past can be used to modify their textures.

SSENCE Acrylic White Gesso (flow type)

ShinHan SSENCE Acrylic White Gesso is made of good quality acrylic resin and pigment for less yellowing and flexible liquid ground. This medium offers shine, which promotes paint adhesion to a wide variety of surfaces for acrylic and oil paints. It comes ready to use, but can be diluted with a reasonable amount of water for thinner application.

Transparency, Luminosity, and Richness

ShinHan Watercolors exhibit strong transparency and brilliance.

The uniform spread of our watercolors leave no hard lines at the edges of washes. Designed with accurate formulas, ShinHan Watercolors have excellent intermixing and overlapping properties that allow artists to work with a wide range of techniques.

ShinHan Art provides four major watercolor lines

- PWC, Extra Fine Watercolor
- SHINHAN PROFESSIONAL Watercolor
- SHAMI Watercolor
- S+ART Watercolor

extra fine artists water colors aquarelles extra-fines

PWC, Extra Fine Watercolor - Tube

PWC, Extra Fine Watercolor is crafted with the highest quality pigments and the finest high-grade gum arabic. To enhance the clarity and depth of color, single-pigments have been used whenever possible. The usage of mixed pigments has been limited. Using single pigments, watercolors are less prone to fading and the consistency of colors are improved. PWC offers exceptional clarity and transparency that artists desire, along with superior lightfastness to resist fading. PWC is ideal for spread techniques and color overlapping, bringing out the best in watercolor paper. The color palette offers a total of 104 colors that are transparent and subtle, yet intense and vibrant, allowing for an even greater freedom of expression.

- 104 very pure and exuberant colors
- · Carefully selected, fine pigments
- · High-grade gum arabic vehicle
- · Highest degree of lightfastness
- Maximum degree of transparency

COLOR CHART 12 colors

Poster Color Medium

SHINHAN Poster Color Medium is made of good quality of gum arabic. It is used for dissolving dried out poster colors. However, adding Poster Color Medium to paints will also have several other effects: it will slightly extend the drying time of the paint, make the colors seem more vibrant, and will increase the adhesiveness of the painting. If the poster colors show sign of dryness, just pour 2~3mm of ShinHan Poster Color Medium into the paint container and mix it well to make it reusable.

PAINTING GLUE

ShinHan Painting Glue for Professionals is a medium intended for use in color mixing. As a water based glue processed from liquefied gelatin, it is used for painting thickly on hanji (traditional Korean paper handmade from the paper mulberry shrub). Its transparency is very important in protecting the chroma and value of color mixtures. To ensure the preservation of an artwork, combine one part glue with one part water when using the following colors: White, Yellow Light, Burnt Sienna, Yellow Ochre, Opal Green, Ultramarine Blue, Light Blue Violet, Orange, Lemon Yellow Pale and Raw Sienna. For other colors, mix one part glue with two parts water.

SHINHAN GOUACHE & HYBRID COLOR

- SHINHAN PROFESSIONAL DESIGNERS GOUACHE
- PASS Color

Professionell Qualität

A superior blend of the finest colors. ShinHan Professional Designers Gouache for the discerning artist.

Highly pigmented ShinHan Professional Designer Gouache provides rich color and flows easily with excellent coverage. It contains the best refined pigments and purified gum arabic to produce highly saturated colors that are beautifully vibrant. ShinHan Professional Designer Gouache is keenly color-crafted with high-performance pigments containing a high lightfastness and is available in 72 colors. The colors brush out smoothly and evenly every time. All of the colors dry matte onto surfaces as smoothly as velvet within a few minutes. By controlling the amount of water dilution, transparency can be adjusted to create results that range from opaque to transparent.

The unique features of ShinHan Professional Designer Gouache allow artists to create beautiful blending and layering techniques. Being popular among designers, illustrators, and commercial artists, ShinHan Professional Designer Gouache offers unlimited color blending possibilities.

A principal difference between watercolor and gouache is that gouache is more opaque. Also, when compared to poster colors, gouache contains more pigment and higher lightfastness, and therefore is more durable.

- •High precision color produced by selecting the world's finest pigments.
- •Velvet-like matte surface
- •Water-soluble opaque paint with excellent concealment power.
- •Highly lightfast color consisting of cadmium and cobalt pigment.

Free expression from opaqueness to transparency

PASS Color is ideal for those who want to express both transparency and opacity to their artwork at once. By controlling the amount of water dilution, transparency can be adjusted. Additionally, as with gouache or poster colors, expressing flat and opaque effects are also easily attained with PASS Color by adding less water. These unique hybrid features allow artists to create beautiful blends and color on color effects with a wide range of available colors.

TOUCH TWIN MARKER

Get the TOUCH!

TOUCH Twin Marker

TOUCH TWIN markers are available in total of 204 brilliant colors ideal for a diverse range of uses including animation, illustration, architectural renderings, and interior design sketches. With a unique fine point nib on one side and a broad chisel nib on the other the TOUCH TWIN Marker offers artists great range in line variation. The delivery of ink flow can be perfectly controlled to allow precision drawing. The ergonomically designed rectangular body resists rolling on work surfaces and provides a perfect grip that avoids smudges and smears. A specially designed safety cap stacks neatly which prevents damage to the nibs. The new TOUCH TWIN marker contains an alcohol-based ink that does not dissolve printed ink toner and allows for odorless, vividly colored artwork on printed materials. Refillable ink and replaceable nibs are also available for TOUCH TWIN Markers.

- Ergonomically designed body for the perfect grip
- 204 brilliant colors
- Double-ended with fine and broad nibs
- Finest control of ink flow, absolutely no smudging or bleeding
- Odorless
- Refillable ink and replaceable nibs

The Soft TOUCH!

TOUCH Twin Brush Marker

The TOUCH TWIN BRUSH Marker features a distinct fine brush nib on one end and a medium-wide chisel nib on the other, allowing users to express a wider range of techniques. The newly broadened color spectrum of 204 brilliant colors allows artists and designers greater possibilities and freedom of expression. The innovative and durable design of the nibs ensures that they will not lose their firmness over time. Optimum ink flow and drying rates allow for seamless execution of even the most detailed artwork. Refillable ink and replacement nibs add to the longevity of the TOUCH TWIN BRUSH Marker.

- Ergonomically designed body for the perfect grip
- 204 brilliant colors
- Double-ended with brush and medium broad nibs

TOUCH MARKER REFILL INKS & INK CASE

TOUCH refill ink

High quality TOUCH Refill inks will help keep your TOUCH longer.

- Universal for all TOUCH TWIN Markers, the alcohol-based ink is odorless, non-toxic, and permanent on most surfaces.
- · Color consistency is guaranteed with each bottle.
- The dropper style tip makes it easy to refill markers and works well for drip effects.
- Measurements are marked on the bottle so you know exactly how much ink to use.
- One 20ml bottle of ink will refill a TOUCH TWIN Marker 6~7 times.
- Match the ink color number with the marker color number you wish to refill.

ShinHan TOUCH Liners from the original maker of TOUCH Markers

Never before have you owned a LINER like it!

SHINHAN TOUCH LINER is the ultimate professional liner that features archival and pigment based inks ideal for precise drawing, illustration, graphic design and documentation. The ink pigments are acid free, water-resistant, smear proof, lightfast, xylene free and conform to safety standards of ASTM D4236. A variety of nib sizes and colors enable artists to satisfy their various pen drawing needs. They can be used in a wide range of art and design fields as they give works precise lines and vivid sense of touch. TOUCHTWIN Markers do not bleed nor smear when used with TOUCH LINER. Available in 9 nib sizes in black, 2 nib sizes in multi-colors, and 5 nib sizes in Cool Grey. (See diagram below)

- Pigment Ink
- Water Resistant
- Archival Quality
- Acid Free
- Instant Drying

- Smear proof
- Great textured shading & blending capability
- Pure cedar wood
- Easy-to-grip, luxurious black finish

Total 12 pencil degrees

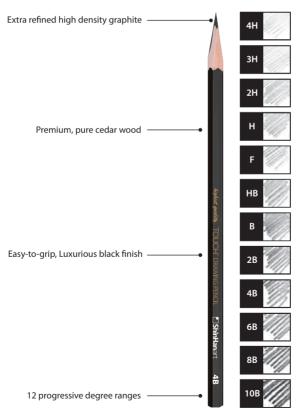

Perfect for Details and Shading - Express your vision with TOUCH that meet all of your expectations.

A good drawing pencil is an essential part of any artist's supplies. As a perfect line extension to current TOUCH brand portfolio, TOUCH Drawing Pencils are crafted with the highest quality materials for professional art, design, drafting, illustration, and rendering on paper. They feature a smooth-gliding, easy to blend, non-crumbling, and extra refined high density graphite encased in premium pure cedar wood. TOUCH Drawing Pencils are available in a progressive grade range of 12, scaling from 10B (softest) to 4H (hardest). Offering extreme versatility, B indicates the graphite's level of blackness or softness, and H its level of hardness. The higher the number, the softer or harder the lead will be. Hard leads make cleaner lines that are less susceptible to smudging; soft leads create richer and heavier velvety lines.

- · Suitable for drawing, sketching and drafting
- Perfect for professionals and amateurs of all ages looking to develop their drawing skills
- Non-Toxic and safe drawing pencils composed of superior extra-refined, high density graphite that is break resistant
- Durable, perfectly centered lead core ensures even sharpening to a fine, long-lasting point; perfect for intricate imagery
- Smear proof lines help produce crisp, clean drawings with great textured shading and blending capability
- Premium, pure cedar wood in an easy-to-grip hexagonal shape that prevents rolling off the table
- 12 progressive degree ranges let you choose the pencil that fits your artistic concepts: (Hard to Soft Graphite: 4H, 3H, 2H, H, F, HB, B, 2B, 4B, 6B, 8B, 10B)
- TOUCH DRAWING ASSORTED PENCIL SETS also available

8613003-1601~1612 TOUCH DRAWING PENCIL 12 degree 4H, 3H, 2H, H, F, HB, B, 2B, 4B, 6B, 8B, 10B

HEALTH, SAFETY AND ENVIRONMENT

As a modern and ethically sound organization, ShinHan Art takes great care of all possible effects caused by its activities with regards to health, safety and environment. ShinHan Art, therefore, gives very careful attention to users of ShinHan Art products as well as its workers. That means ShinHan Art considers its duty to social responsibility.

Product development

The use of hazardous raw materials is rationed as much as possible when ShinHan Art manufactures its products. Continuous insights into the use of raw materials keeps ShinHan Art products' harmfulness to a minimum. When it is impossible or undesirable to replace certain hazardous substances, a safety label is given to these related products. In this way, our customer is informed of how to work with the product out of harm's way.

Safety Data Sheet

ShinHan Art, the largest art materials manufacturer in Korea, is obliged to provide customers with the safety Data Sheet for each product that contains hazardous components and also provide safety labels on the packages. For products that do not include hazardous substances, Safety Data Sheets are also available. This document explains how to use our products safely to customers. The Safety Data Sheets can be downloaded via our website: www.shinhanart.com.

United States

American legislation requires a regulation for describing the way a coloring material product has been manufactured to determine whether it poses a danger to health. Coloring materials for artists must be screened in accordance with the Standard Practice for Labeling Art Materials for Chronic Health Hazards (ASTM D4236). The packaging of such products are supplied with a Conformance Statement indicating that the products meet this standard. This regulation applies solely to the United States.

ShinHan Art is a member of the Art & Creative Materials Institute (ACMI). As part of the certification program of this institute, ShinHan Art products are examined by a toxicologist according to the (as mentioned above) ASTM D4236 regulation.

ShinHan Art products have one of the the following ACMI seals. The Conformance Statement is added below these seals:

AΡ

Products bearing the AP seal of the Art & Creative Materials Institute, Inc. (ACMI) are certified non-toxic. A medical expert evaluates each product and its ingredients. A product can be certified non-toxic only if it contains no materials in sufficient quantities to be toxic or injurious to humans, or to cause acute or chronic health problems. AP certification is reviewed by ACMI's Toxicological Advisory Board. These products are certified by ACMI to be labeled in accordance with the chronic hazard labeling standard, ASTM D-4236 and federal law PL. 100-695.

CL

Products bearing the CL seal of the Art & Creative Materials Institute ("Caution Label") contain ingredients that are toxic or hazardous, but they can be used safely with appropriate caution. Materials that bear the CL seal should be used only by those persons who are able to read, understand, and follow suggested safety precautions for handling those materials. The Caution Label signifies that although the product contains a toxic element, it can be handled safely if the directions on the container or packaging are followed. Many such art products cannot be made non-hazardous, but are necessary for certain creative activities
